CALL FOR PAPERS

The Second International Conference on Artificial Intelligence and Green Computing (ICAIGC 2025) will take place in Beni Mellal, Morocco, during May 14-16 2025. This event will gather leading academics, researchers, and professionals from various fields. It will serve as a platform for discussing advancements in AI and Green Computing. Attendees will have the chance to exchange ideas and explore solutions to the challenges in these areas.

The conference will feature keynote speeches from internationally recognized experts in AI and Green Computing. Participants can attend oral presentations showcasing cutting-edge research. Interactive poster sessions will also be organized to facilitate discussions. These activities aim to foster collaboration and knowledge exchange among participants.

All accepted papers will be published in the conference's e-book of abstracts and in the Lecture Notes in Networks and Systems (LNNS) Springer Series. These publications will be indexed in databases such as Scopus and DBLP. Extended versions of selected papers may also be considered for publication in international journals.

One of the highlights of ICAIGC 2025 will be the "Mellali" social and cultural program, offering participants a unique chance to experience the rich history, culture, and hospitality of Beni Mellal, while fostering informal discussions and collaborations in a welcoming atmosphere.

Mark your calendar now and prepare to participate in this highly anticipated scientific event that will serve as a milestone for research and innovation in AI and Green Computing. Don't miss the opportunity to be part of this transformative gathering in the heart of Morocco
