

**December
9–11,
2026**

TRAINING COURSE
offered by  **FNEGE**
Fondation Nationale pour l'Enseignement
de la Gestion des Entreprises

**“Academic Training Program “Meet the
Editors in the age of generative AI” of EJIS,
IJIM, ISR, JIT, JAIS, JSIS, MISQ, MS, SIM”
Information Systems / Faculty Publishing Workshop**

Update : 09/09/2026

Registration

(form if you reside in France)

Registration

(form if you do not reside in France)

SUMMARY The objective of this workshop is to support young information systems faculty members and less young PhD supervisors from France and all over Europe in their effort to publish their research in the most prestigious outlets within the information systems discipline. Over a period of three days, experienced editors or past-editors of leading information systems journals will work together with the participants in an interactive way to provide hands-on advice on the research publication process.

Topics of discussion include how to submit a paper to a top journal, manage the review process and respond to reviewers; how to build up a successful research team; how to position a manuscript and clearly define its contribution to theory; how to do a critical review of the literature and write a type of literature review; and how to get publication, based on qualitative or quantitative empirical research, in leading American and European journals. Beyond learning the craft (Kane & Tarafdar, 2026), how to leverage generative AI in various activities of each paper genre will be a key distinctive element from previous editions (ibidem), addressed by all presenters.

The seminar will be limited to 15 participants to foster a high level of interaction between participants and presenters (editors), as well as among participants. It will take place in Paris from December 9 to 11, 2026.

PROGRAM

Day 1: Introduction: Meet the Editors

- > “Types and argumentative strategies literature review: from BIBGT to generative AI strength and caution” Frantz Rowe
- > “How to craft a conceptual paper/ how to deal with theoretical development” Suzanne Rivard
- > Dinner (guest), Jean-Loup Richet

Day 2:

- > “Argumentation in critical social theory” Ojelanki Ngwenyama
- > “Strategies for Crafting and Publishing High-Impact Qualitative Research” Michel Avital

Day 3:

- > “Positioning a Paper for Management Science: Tips, Hints and Strategies for Publishing Quantitative Research in IS in the age of Gen AI” Elena Karahanna
- > “Crafting an A Paper responsibly with GenAI” Gerald Kane

SPEAKERS

Coordinated by **Frantz Rowe**, Professor, Nantes University (IEMN-IAE and LEMNA), Senior Member Institut Universitaire de France, former Editor-in-Chief European Journal of Information Systems, International Journal of Information Management, Editorial Board

Suzanne Rivard, former Theory and Review Departmental Editor, MIS Quarterly, former Senior Editor Journal of Strategic Information Systems and former Senior Editor, Journal of the Association for Information Systems

Jean-Loup Richet, Senior Editor and incoming Deputy Editor-in-Chief, Systèmes d'Information et Management

Ojelanki Ngwenyama, Senior Editor European Journal of Information Systems and Editorial Board Information Systems Research

Michel Avital, Senior Editor, Journal of Information Technology and former Senior Editor European Journal of Information Systems. Editorial Board, Journal of the Association for Information System; MIS Quarterly Policy Committee member; AIS Vice-President for Publications

Elenna Karahanna, Associate Editor Management Science and former Senior Editor MIS Quarterly

Gerald Kane, Former Senior Editor, MIS Quarterly, Senior Editor, Journal of the Association for Information Systems

OPERATIONAL OBJECTIVES

Upon completion of the training, participants will be able to:

- > Learning the craft for each paper genre for publishing in top journals
- > Prompting for GenAI-Augmented Paper Writing

TEACHING METHODS

It presents theories based on a set of foundational and recent articles, outlining the various types of literature reviews and the prerequisites for publishing in leading journals.

ASSESSMENT METHOD

End-of-training knowledge assessment questionnaire.

TEACHING RESOURCES

Speakers' PowerPoint presentations, scientific articles, and generative AI.

PREREQUISITE

None.

PUBLIC

Full-time faculty members who have either recently been hired by an academic institution or are working in such an institution for less than ten years or have greater seniority but are still directing PhDs. The event is targeted towards faculty members who have obtained their PhD and are working in a business school or university in Europe. Participants are expected to participate during the full duration of the workshop.

APPLICATION PROCEDURE:

Applications should be sent by e-Mail to Agathe AMIOT (amiot@fnege.fr) by October 1st at the latest. Early applications are welcome. Applications should include a short (one-page) CV, a brief statement (300 words) on the reasons for wanting to attend the seminar and a copy of a recent research paper (either published or work-in-progress) authored or co-authored by the applicant. Selection will be based on academic achievement and participants will be notified by October 15th.

TERMS OF ACCESS

Complete and return this [registration form](#) (form if you reside in France) or this [registration form](#) (form if you do not reside in France) and submit the application package.

ACCESSIBILITY

To best tailor our training courses, we strongly encourage you to contact us if you have a disability. FNEGE systematically seeks solutions to meet your needs. Disability Liaison: [Maëlle BRUMARD](#)

Outcome indicators based on the analysis of satisfaction surveys conducted with individuals trained in the first half of 2026:
